**L'ATELIER D'ARGENTINE'S CHEF NATALIA MACHADO OFFERS  
AN EXCLUSIVE JOURNEY THROUGH ARGENTINA**

*The Chef's Table is now available*

**MONTREAL, May 9, 2013** – As Montreal's only truly authentic Argentinian restaurant, l'Atelier d'Argentine will now offer patrons the chance to discover the flavours of Argentina. Seated right by the kitchen and the wine cellar, the lucky few will have a privileged access to world-renowned chef Natalia Machado who will accompany them on a delicious journey with a six-course culinary experience.

"We're very excited to offer Montrealers and tourists alike a truly authentic Argentinian gastronomic experience," says Natalia Machado, executive chef at l'Atelier d'Argentine. "This is a great opportunity for me to share my passion for Argentinian food and wine, as well as my creativity in the kitchen. The menu will be different each week based on fresh ingredients, exciting flavour and simplicity."

Raised in Buenos Aires with summers spent in Patagonia, Natalia, 34, was able to experience both the sophisticated cuisine of the big city and the excellent seafood and wide-open freedom of the coast. She will put her talent and experience to use with each course featuring a typical dish, and an Argentinian wine pairing.

The Chef's Table will allow Natalia Machado's guests discover a specific region of her beautiful country. Guests' taste buds will travel through many provinces of the diverse country and will get to experience the best of what each region has to offer. Fresh fish and seafood, delectable meats, and fresh vegetables will be prepared in a typical Argentinian fashion, depending on what inspires Natalia at the moment.

Offered every Wednesday night upon reservation, each journey promises to be unique, with a great value for money. The price, \$95 per person, includes all food and wine.
