Celebrates Two Great Years!

Last week one of our favorite restaurants, [l'Atelier d'Argentine](#), celebrated its second anniversary in Old Montreal. It was a star-studded event that saw the restaurant packed to the rafters with celebrities, media and friends of the restaurant! We were on hand as the wine flowed and delicious empanadas and other canapés came out of the kitchen to keep our appetites under control. Here are a few exclusive shots from the night for your viewing pleasure!

Argentines are the cowboys of South America so a little horsing around was expected. Jillian Zrihen (*pictured above*), the event's organizer and one of Montreal's most fashionable PR mavens was excited by the turnout for the restaurant's celebration.

The crowd gathered under the \$30,000 Swarovski crystal ball to celebrate the restaurant's 2nd anniversary.

Montreal's most socially savvy media mixed with local celebrities for the night's hot-ticket celebration. For more info on the fantastic

BLAIR DOHEY

August 25th, 2014

Blair Dohey knows a thing or two about day jobs and the nightlife. For over ten years he has been inadvertently researching bars, cafes, pubs, clubs, restaurants and everything in between, all so that he can bring a refined selection of amazing places to those who want to have a great night out after a long day of work.
