Following the mention of Gluten-Free options on my previous post [Wienstein & Gavino](#) I received a few message asking for more information. This is the follow up to your request and here more details about their menu please note as stated below that this menu is not for those who suffer from Celiac disease. Making eating out a great experience for gluten-free enthusiasts in Montreal, Wienstein & Gavino's is expanding the Italian culinary experience by creating a menu with a varied choices of gluten-free dishes.

The new menu consists of a variation of fresh pasta dishes, a wide choice of oven cooked pizzas and traditional Italian dishes revisited to be gluten-free. The menu also includes heart-warming dishes such as Filetto di Manzo, a filet de boeuf served with a cheese filled sauce. Let's not forget the Italian Dolci list that involve a gluten-free chocolate cake, indulgent yet light!

This menu below was created for those who prefer to follow a gluten-free lifestyle and not for those who suffer from Celiac disease. W&G cannot guarantee against possible cross-contamination or traces of gluten.
